Our multi-disciplinary Maternal Fetal team

at Rocky Mountain Hospital for Children is the most experienced in the region.

Patients have traveled from a 7 state region for high risk pregnancy care from our teams.

We understand that being diagnosed with a high-risk pregnancy can be emotionally and physically difficult. From the moment you meet our physicians and patient navigators, you'll experience our dedication to the best possible outcomes for you and your baby.

Rocky Mountain Hospital for Children patient navigators offer personalized care coordination to ensure you have a seamless patient experience. They help coordinate multi-disciplinary consultations and provide individualized patient education and support.

We are here for you.
